Learning together with Respect, Friendship and Perseverance

Newsletter 1 – 11 September 2020

Dear Parents and Carers

So, my perseverance and resilience has been tested this week as I battled with technology not doing what I had hoped it would do! Hopefully you will all now have seen the link on the school story page of Class Dojo which will allow you to watch the whole of my 28 minute Meet the Teacher 2020 video!

Thank you for the 64 responses which have been submitted in response to the remote learning survey. This is building a really interesting and useful picture. If you haven't responded please take this last opportunity to do so over the weekend as the window will close on Monday and results analysed.

Have a restful weekend.

For fantastic school dinner booking and for adhering to the changes to the new school drop off and collection procedure which has run very smoothly

The main symptoms of coronavirus

a high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)

• **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)

- **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

Most people with coronavirus have at least 1 of these symptoms.

What to do if you have symptoms

If you have any of the main symptoms of coronavirus:

1. Get a test to check if you have coronavirus as soon as possible.
2. Stay at home and do not have visitors until you get your test result – only leave your home to have a test.

Anyone you live with, and anyone in your support bubble, must also stay at home until you get your result.
